

Temporary Library for Creating Commons

Curated by
Alessandro Ludovico,
Cornelia Sollfrank, Felix Stalder,
Shusha Niederberger

The Temporary Library project starts from reconsidering libraries as dynamic and independent forms that can be created, contributed and shared. It metaphorically breaks the library walls, making a curated selection of publications exposed to a broader public, acting as both archive and distribution. The Temporary Library for Creating Commons, co-curated by Alessandro Ludovico, Cornelia Sollfrank, Felix Stalder, and Shusha Niederberger, has been conceived to reflect on the seminal concept of Commons, especially with their digital aspects. Publishers has been asked to donate publications, and a specific space will be dedicated to access the collection. At the end of the exhibition the Temporary Library will be donated to the ZDHK library, and will form a special collection, available to be temporary lent as a whole, under certain conditions. We finally want to thank all the generous donors who made it possible.
